

Wisconsin Territory

AB&I Foundry produces quality cast iron soil pipe and fittings for Drain, Waste and Vent (DWV) plumbing systems.

Alderon Industries is a manufacturer of control panels, float switches, alarm systems, specialty controls and switches for water, wastewater, HVAC, irrigation, industrial, pressure boosting systems, telemetry systems, elevator sump pits, and many other industries.

Anaco manufactures a complete line of standard no-hub stainless steel couplings for no-hub cast iron soil pipe. Under our Husky brand we manufacture a complete line of heavy-duty and value-engineered stainless steel, shielded no-hub couplings. We also produce a line of specialty transitional couplings by Cremco that conjoins dissimilar piping materials.

Filters, Cartridges, Systems and Units for Improving water.

The superior benefits of Champion Fiberglass Conduit lead directly to savings. These powerful, versatile materials drive faster installation and lower labor costs, without sacrificing quality or

longevity. Providing, Duct, Haz Duct, Phenolic Conduit, Strut and Hangars

E-Z Fold and E-Z Flex markers for easily locating Fire Hydrants.

Thermoplastic Industrial and mechanical products - pipe, valves and fittings. Serving the Industrial, Plumbing, and municipal markets.

Structural Foam and Engineered Filament Wound Wastewater Basins, Stainless Steel Guide Rail Systems, check valves, and accessories.

Pipe Joining and Repair Fittings for water and wastewater applications.

Tracer Wire and location detection accessories.

Industrial Hose, PVF, Waterworks and Irrigation Products and Accessories.

MULTI FITTINGS SDR-35 Solvent Weld and Gasketed, SDR-26 Heavywall and Enginnerd Fittings and Couplings, Philmac UTC/Poly Fittings

Universal Rubber Pipe Connectors - couplings, Connectors, Tees and

Elbows, Universal Saddles, Specialty Couplings.

Dual Containment Systems, Process Chemical Tanks, Pump Containment

Enclosures, Funnels

Innovative pipe products combined with consistent quality and outstanding service has established Polyethylene Technology, Inc as a leading manufacturer of pipe for the geothermal industry. Our

Geothermal Pipe is used in residential, commercial and institutional applications.

RieberLok® gaskets are the fastest, easiest and least expensive way of field restraining ANSI/AWWA C900 pipe and fittings originally manufactured with a Rieber gasket.

Residential/Commercial/Industrial Valves.

Pipe Tools and Vises for Plumbing and Waterworks.

High Purity Valves, High Pressure Valves, General Purpose Valves, Actuation, Controls

+GF+ URECON Waterworks Pre Insulated Pipe Systems and Heat Tracing

Waterworks/Industrial Cement, Primer, Lubricants, Roofing, Plugs and Accessories

The connection you can trust.

Philmac is a global leader in the design and manufacture of specialist fittings and valves, providing cost-effective solutions.
